AAR Type of Action Codes

Code	Type	Description
1 (SL)*	Licensure (State Licensure)	State licensure actions are adverse actions taken by State licensing authorities related to the license, certification, or registration of health care practitioners, providers, and suppliers. State licensing actions include State professional and health care facility licensing sanctions. State licensing actions against physicians and dentists that are based upon the subject's professional competence or conduct are reportable to the NPDB under provisions of Title IV of the Health Care Quality Improvement Act of 1986, as amended, and 45 CFR Part 60. All State licensing actions against health care practitioners, providers, and suppliers are reportable to the HIPDB under Section 1128E of the Social Security Act and 45 CFR Part 61.
2 (FL)	Licensure (Federal Licensure)	Federal licensure actions are adverse actions taken by Federal licensing authorities related to the license, certification, or registration of health care providers, practitioners, and suppliers. Federal licensure actions include Federal CLIA certification actions; Federal DEA registration actions; and Federal FDA licensing, certification, and registration actions. These actions are reportable to the HIPDB under Section 1128E of the Social Security Act and 45 CFR Part 61. DEA registration actions against health care practitioners also are reportable to the NPDB under Title IV of the Health Care Quality Improvement Act of 1986, as amended, and 45 CFR Part 60.
3 (CP)	Clinical Privilege (Includes Panel Membership)	Clinical Privilege actions are adverse actions taken by hospitals and other health care entities related to the authorization of health care practitioners to provide health care services, including actions related to a practitioner's membership on the medical staff or panel, and based upon the subject's professional competence or conduct. These actions are reportable to the NPDB under Title IV of the Health Care Quality Improvement Act of 1986, as amended, and 45 CFR Part 60.
4 (HP)	Health Plan	Health plan actions are adverse actions that are taken by a health plan against a health care practitioner, provider or supplier and that are reportable to the HIPDB under Section 1128E of the Social Security Act and 45 CFR part 61. These actions must meet the regulatory definition of "other adjudicated actions," which requires that they: 1) be formal or official actions; 2) include the availability of a due process mechanism; and 3) be based on acts or omissions that affect or could affect the payment, provision or delivery of a health care item or service. The definition specifically excludes clinical privileging actions or paneling decisions (which normally are the result of a formal peer review process). However, quality actions that include the availability of due process are reportable. An example of a reportable health plan action would be the termination of a practitioner's contract to provide health care services, as long as it meets the three specified criteria.
5 (ED)*	Exclusion or Debarment	The exclusion or debarment of a health care practitioner, provider, or supplier from participating in and/or contracting with a Federal or State health care program is reportable to the HIPDB under Section 1128E of the Social Security Act and 45 CFR Part 61. Exclusion of a practitioner from the Medicare and Medicaid programs is reportable to the NPDB under a Memorandum of Understanding with the Office of Inspector General, and the Centers for Medicare & Medicaid Services, U.S. Department of Health and Human Services.

AAR Type of Action Codes (continued)

Code	Type	Description
6 (PS)	Professional Society	Professional Society actions are adverse actions taken by associations of health care practitioners that follow formal peer review processes for the purpose of furthering quality health care and that are based upon the subject's professional competence or conduct. These actions are reportable to the NPDB under the provisions of Title IV of the Health Care Quality Improvement Act of 1986, as amended, and 45 CFR Part 60.
7		RESERVED
8		RESERVED
9 (GA)	Government Administrative	Government Administrative actions are reportable to the HIPDB under Section 1128E of the Social Security Act and 45 CFR Part 61. They encompass adverse actions reportable to HIPDB that are not classified elsewhere. This category includes any publicly available negative action or finding by Federal or State agencies that certify health care practitioners, providers, and suppliers for participation in a Government health care program. In addition, other Government Administrative actions include any other adjudicated action or decision by an authorized Federal or State agency against a health care practitioner, provider, or supplier. These adjudicated actions or decisions may include, for example, personnel actions, employment disqualifications, and contract terminations.

* The Interface Control Document (ICD) Transfer Program (ITP) only accepts AAR report submissions of State Licensure (1) and Exclusion/Debarment (5) action types.

I	Initial: The first record of an adverse action that is submitted to and processed by the Data Banks. An Initial Report is the current version of the report until a Revision to Action, Correction, Void, or Notice of Appeal is submitted.
C	Correction: A report that corrects an error or omission in an existing report. The Correction will supersede the contents of the current version of a report in the Data Banks. It should be submitted as soon as possible after a reporting error or omission is discovered. Corrections may be submitted as often as necessary.
V	Void: The retraction of a report in its entirety from the Data Banks. The report is removed from the subject's disclosable record.
R	Revision to Action: A new action that relates to and modifies a previously reported adverse action, (e.g., reinstatement of a license, extension of an exclusion from a Government program, restrictions of clinical privileges lifted, previously stayed license revocation imposed). A correction of a Revision to Action Report may be submitted via the IQRS or QRXS
O	Correction of Revision to Action: A report that corrects a previously submitted Revision to Action Report. This correction will supersede the contents of the current version of the Revision to Action Report in the Data Banks. It should be submitted as soon as possible after a reporting error or omission is discovered. Corrections may be submitted as often as necessary.
A	Notice of Appeal: A report notifying the HIPDB that a subject has formally appealed a previously reported adverse action. Reporting entities must submit a Notice of Appeal whenever a previously reported adverse action is on appeal. A Notice of Appeal is separate and distinct from a subject's dispute of a Data Bank report. There is no legal requirement for this type of report to be submitted to the NPDB.
